JOHN R. MOHLER, CHIEF OF BUREAU.

### SERVICE AND REGULATORY ANNOUNCEMENTS.

OCTOBER, 1920.

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 50 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

**TEXAS-FEVER QUARANTINE—PLACES TO WHICH SOUTHERN CATTLE  
MAY BE SHIPPED FOR IMMEDIATE SLAUGHTER.**

The following changes have been made in the list of places to which southern cattle may be shipped for immediate slaughter under State and Federal permission:

**Permission Granted.**

TEXAS: *San Antonio*—Union Stock Yards.

VIRGINIA: *Norfolk, (Berkley)*—Union Stock Yards.

**Permission Withdrawn.**

PENNSYLVANIA: *Philadelphia*—Armour & Co.; Consolidated Dressed Beef Co. D. B. Martin & Co.; and West Philadelphia Stock Yards Co.

**AMENDMENT TO PROPERTY REGULATIONS.**

[By memorandum No. 329 of the Office of the Secretary, dated Sept. 29, 1920.]

Paragraph 9 of the property regulations is amended to read as follows:

9. *Sale or other disposition of property in general.*—Articles for which the department in Washington has no further use, and articles which have become unserviceable will be turned over, fully listed and tagged, to the officer in charge of supplies. Upon receipt of property thus turned in, the officer in charge of supplies will place the same on exhibition, notifying all property officers of the various bureaus and offices of the fact, and transfer, without charge, to other bureaus or offices, such articles as may be desired, taking a receipt for the same which shall be attached to the turn-in papers and become a part of the record in that particular case. The officer in charge of supplies may also take into his stock such articles as he can handle and believes at some future time may be disposed of in the same way. The officer in charge of supplies shall then call a meeting of the board of survey and dispose of the residue of the turned-in property by transfer to the General Supply Committee.

When any board of survey has decided that articles shall be sold the sale will be advertised by notifying interested parties by letter, circular, or poster. No expense will be allowed for advertising in newspapers except by specific written authority of the Secretary. When property has been sold the board of survey will pay all expenses, take receipts therefor, and remit the net proceeds by postal money order, bank draft, or cash to the disbursing clerk of the department or appropriate fiscal agent, to be deposited in the Treasury to the credit of miscellaneous receipts. No department property shall be disposed of by private sale unless the Secretary shall so direct.

For action concerning such articles outside of Washington special boards of survey will be appointed upon recommendation of the chief of bureau. Recommendations for the appointment of special boards of survey shall be supported by descriptions of the articles to be disposed of, together with statements of the specific reasons therefor.

In the case of articles of equipment at field stations of the Forest Service and the Bureau of Public Roads, which have become unserviceable or which are of no further use in the service but have a sale value estimated at \$500 or less, the Forester or the Chief of the Bureau of Public Roads shall have full authority to act in like manner to and subject to all the restrictions prescribed for boards of survey, and may delegate this authority to district foresters and district engineers, respectively. This authority may also be delegated by the Chief of the Bureau of Public Roads to the chief of the Equipment Division of that bureau.

It shall be the duty of each board of survey to see to the destruction of all property which it has condemned and ordered to be destroyed. At least one member of the board shall be present when the property is destroyed, and when proper destruction has been effected shall make and submit to the Secretary a certificate to that effect.

The transfer of property in the field from one branch of a bureau to another shall be made only upon approval of the chief of bureau.

The transfer of property in the field from one bureau to another shall be made only upon the approval of the Secretary.

The sale of property in the field by one bureau to another is prohibited.

### INSTRUCTION BY CIVIL EMPLOYEES IN ANY INSTITUTION PREPARING PERSONS FOR CIVIL-SERVICE EXAMINATIONS.

For the information and guidance of employees of the department there is quoted below a letter from the Civil Service Commission, dated September 22, 1920, regarding teaching in schools where special preparation is made to assist persons in passing civil-service examinations.

The commission invites your attention to an Executive order of the President, dated October 13, 1905, which reads as follows:

"No officer or employee of the Government shall directly or indirectly instruct or be concerned in any manner in the instruction of any person or class of persons with a view to their special preparation for the examinations of the United States Civil Service Commission. The fact that any officer or employee is found so engaged shall be considered sufficient cause for his removal from the service."

On January 13, 1920, the President promulgated an order amending that of October 13, 1905, the effect of the amendment being to extend to Government establishments generally the exemption made recently in the case of the Federal Board for Vocational Education. A copy of the Executive order of January 13, 1920, is herewith inclosed. It is important to point out that the scope of this Executive order includes those cases where Government employees are now engaged in teaching at any institution and where approval has not already been obtained.

It is requested that the Executive order of January 13, 1920, and the scope of its application be made immediately public in the department.

The commission would further be pleased if, as the department has occasion to consider cases arising under this Executive order, and before it consents to the employment by a school of an officer or employee for the purpose of teaching any subject, the matter should be referred to the commission for its opinion as to whether such teaching is in violation of the order referred to.

The Executive order, as amended, reads as follows:

No officer or employee of the Government shall, directly or indirectly, instruct or be concerned in any manner in the instruction of any person or classes of persons, with a view to their special preparation for the examinations of the United States Civil Service Commission. The fact that any officer or employee is found so engaged shall be considered sufficient cause for his removal from the service: *Provided*, That this order shall not be so construed as to prevent the Federal Board for Vocational Education, the Medical Departments of the Army and Navy, and any other branches of the Government from utilizing the Government facilities and the services of Federal officers and employees where such facilities or services may be necessary or useful in carrying out the duties imposed upon such departments or branches by law, in the training and testing of disabled soldiers, sailors, and marines.

In this connection attention is called to memorandum 286, dated July 25, 1919, and paragraph 51 of the Administrative Regulations relating to this matter. All employees in the department concerned are requested to cooperate with the Civil Service Commission in carrying out the provisions of the Executive order.

### SAVE FIRST.

"What's become of that pocketful of bills I had the other day?"

This is the question that the average man most frequently asks himself, and most generally fails to answer. The last few dollars are easy to account for, but memory fails to pick up the trail of the others.

The cold fact is, it's gone. Well, you'll save some of the next handful you get. This has gone on long enough.

But what did become of that first dollar out of the pay envelope?

The man who has found the road to comfort, probable prosperity, even wealth, can always answer it.

He saved it.

He did not wait to put away as savings what was left when he got through spending.

He saved out first for himself some small sum whose absence was certain not to embarrass him. If there was money left when his next pay came in, he saved what was left, too.

The man who can not answer it is the too-frequently found man who is ever the victim of "hard luck." He never has at hand a weapon to drive the wolf away.

The steady, consistent saver is the man who wins. The first dollar out of the pay envelope is never missed.

Save first. Spend afterwards.
